Connecting everyone to the outdoors™

Mayors Innovation Project Winter Meeting 2025

**Trust for Public Land
is a national nonprofit
working to protect
land and create parks
for people.**

Parks are vital for thriving communities.

- Proven to improve physical and mental health; build cohesion, social capital and connection; protect the environment and grow resilience; and strengthen economy vitality
- Parks are an underutilized solution to today's most pressing issues, with achievable steps to implement

**But great parks
aren't created equal.**

100 million people,
including 28 million
children, don't have a
park within a 10-
minute walk of home.

TPL work with cities and partners to close the **Park Equity Divide**:

1. **Do the work with communities** – building community-driven, outcome-maximizing parks
2. **Create a Solutions Roadmap for others** – research, resources, training, and direct assistance
