

Mayor's Task Force on City Land Redevelopment

Mayor Andrea Davis

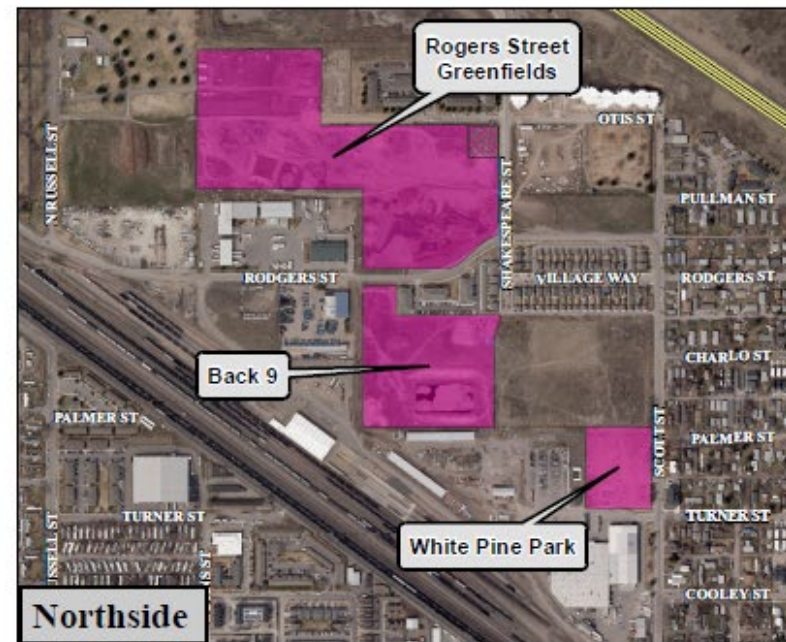

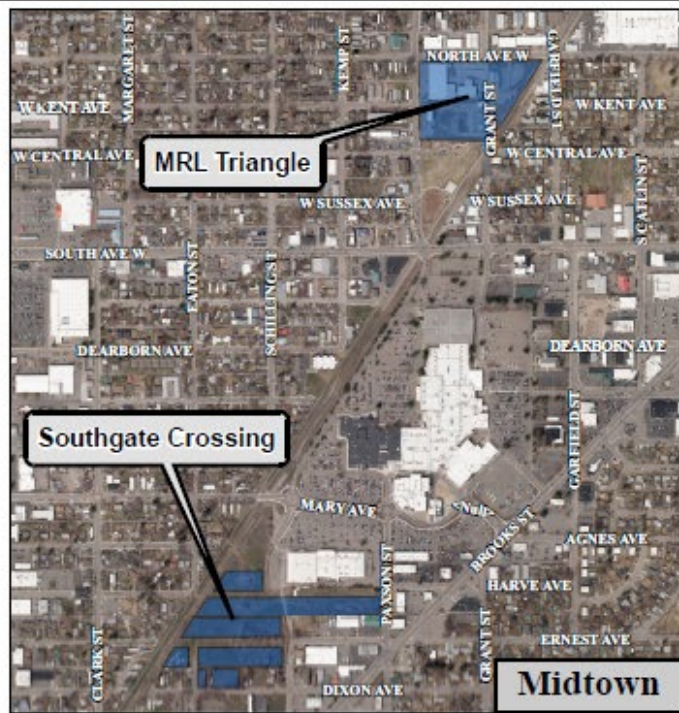

Mayor's Task Force on City Land Redevelopment

Mission

To **advise and support the City** in developing a clear, actionable strategy for the disposition or redevelopment of City-owned **properties that are surplus to municipal needs** in the short and long term. The Mayor's goal is to utilize these public lands to expand **housing options** Missoulians can afford and advance broader neighborhood and **community objectives**.

City Redevelopment Lands

Task Force Outcome - Guiding Principles

- Public land for public benefit
- Strategic leverage, not one-off sales
- Right use, right place
- Engagement with pragmatism
- Balance speed with stewardship
- Fiscal responsibility and creativity

The Task Force recommended that the City think about its lands as a mosaic or a portfolio – each property can be used to create different potential benefits and together achieve many things, but no one property does everything we want.
